### CHARACTERISTICS

- It is a newly advanced pattern, which can be drawn by POS printer or the host computer of cashing machine.
- Adapt to all kinds of advanced POS machines and cashing machines.
- The pairing element employs bearing steel grounder to touch with steel lead rail, which makes the cash box move mutely and smoothly. Thus, the cash drawer can endure longer.
- A three position lock ensures the cash's security.
- The lengthening case for single check suits for the storage of non-paper currency or large checks.
- The inner cash box can be taken out separately. The inner holders' space of cash box can be adjusted.
- Specially lines-reserved design can conceal the link line with host computer, which can make the host computer neater and easier to dissipate heat.(HS-400D2 cash drawer has this design, but HS-400D1 cash drawer doesn't have this design.)
- SPCC cold rolling steel plate shell and SECC-N5 electroplating zinc under plate which is firm and anti-rust.
